Experience

Store clerk | Carrefour B-Park | West-Flanders Bruges | 2019 – Current

- Helped the store gain to around €100k a day in revenue
- Managed over hundreds of products within a certain time frame
- Trained and assisted new coworkers
- Worked in different sections in the store

Projects

Twitter Clone

A Twitter Clone made using Node.js, MongoDB and Express. You can like, comment, retweet, remove posts and visit profiles. A YT video is available in the readme for more context. GitHub-project.

Machine Learning Project

A supervised machine learning project made to predict three features. Used all kinds of algorithms, data preprocessing strategies and more to obtain my results. GitHub-project.

(and much more)

Education

Bachelor: Applied Computer Science (Major in AI)

University of Howest in Bruges (2021 – 2024)
